

Bona® Platinum Abrasives

Technical data sheet

Bona Platinum Abrasives provide maximum aggressiveness for the best efficiency on difficult floors. The combination of ceramic and aluminum oxide grains makes this abrasive the perfect solution to aluminum oxide and ceramic prefinished floors, badly damaged floors and floors with multiple layers of finish coats. Bona Platinum Abrasives last 3-5 times longer and cuts significantly faster than other competitive products.

- Lasts 3-5 times as long as competitive ceramic abrasives
- 4th generation ceramic grain significantly outperforms the competitors 1st generation grains
- Polyester backing is 100% resistant to moisture and humidity
- Available in: 8" & 10" Belts and 12" Rolls

Order Information

8" Sanding Belt (7^{7/8"} X 29^{1/2"})

ITEM NO.	GRIT	NO./CASE	LBS./CASE
AAS870077836	36	5	4.05

10" Sanding Belt (9^{7/8"} X 29^{1/2"})

ITEM NO.	GRIT	NO./CASE	LBS./CASE
AAS870097836	36	5	4.85

Bona Platinum 12" Sanding Rolls

ITEM NO.	GRIT	NO./CASE	LBS./CASE
