

Bona Ultra Matt UV

Invisible low-gloss coating system that provides years of protection

Bona[®]

Our Bona Ultra Matt treatment gives the wood a totally natural matt look. The gloss level is so low that the floor looks matt from both 60° and 85° angles.

Bona Ultra Matt offers a new dimension in natural UV treatments, preserving the natural look of any wooden floor while providing long-term protection. What's more, it simplifies and speeds up maintenance while giving a totally natural-looking low-gloss (4-5) effect.

With Bona Ultra Matt, wooden floors maintain their untreated matt appearance at both 85° and 60° viewing angles. The treatment is genuinely invisible, yet remarkably robust, providing years of low-maintenance protection against dirt, abrasion and fading.

The ultra-low gloss look of natural wood, the durability, the minimal maintenance – with Bona Ultra Matt you can satisfy the most design-conscious consumers and specifiers. People who want the

experience of natural wood without the hard work or expense that sometimes implies.

- Ultra-low gloss over a wide range of viewing angles
- Preserves the fresh, clean look of untreated wood
- Long-term protection against dirt, abrasion and fading
