

BONA TOTAL SANDING SOLUTIONS

BONA DUST CONTAINMENT SYSTEM

Why Dust Containment

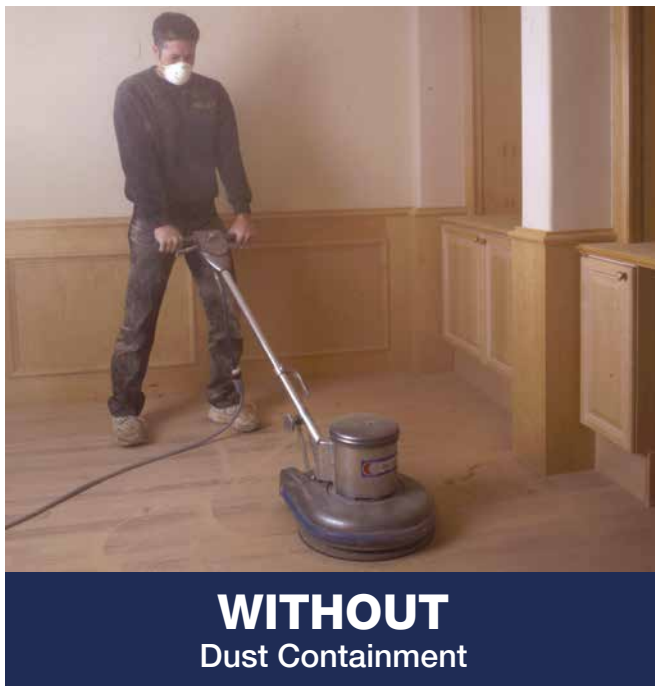

Dust containment has become an expected service among consumers. They have become more aware of their dust-free sanding choice, and they realize they don't have to put up with the mess or health risks. That is why Bona has pioneered the most powerful, portable, and effective dust containment systems ever. The Bona Atomic® Dust Containment Systems are the necessary innovations to push your business forward, offering increased customer satisfaction, higher quality results, and healthier working conditions. Bona Atomic Dust Containment Systems are GREENGUARD Indoor Air Quality Certified®, and the Bona system is the only GREENGUARD certified hardwood floor system in the industry.

Bona's innovative dust containment systems provide:

- Increased customer satisfaction - virtually eliminates the nightmare of dust throughout the home
- Higher quality results - eliminates airborne dust that would settle back down into the finish
- Healthier working conditions - wood dust is a known carcinogen*
- Less time spent on site - no time consuming prep work of hanging plastic or costly clean-ups

*15th Report on Carcinogens. U.S. Department of Health and Human Services, Wood Dust, 2021.

Bona® Atomic Dust Containment System

The innovative concept of the van-mounted Bona Atomic Dust Containment System means having a more powerful system while providing evacuation of the airborne dust that is generated from the entire sanding process.

- Ideal for hard-to-access residential and commercial jobs
- Dramatically more powerful system, providing evacuation of airborne dust
- Powered by a 25-HP water-cooled Kawasaki engine outside the home or business
- 200 ft. of 2", and 100 ft. of 1.5" non-marking hose connects the sanding machines to the dust collection system in the van
- 15 ft. of 1.5" non-marking hose with detailing end attachments
- Perfect billboard to advertise your business - can be customized with your company name, logo, phone number and website, plus your choice of a full-color photograph

Bona Portable DCS® 2.0

Powerful, two motor Portable Dust Containment (PDC) system from Bona! By combining a Bona exclusive two-step cyclonic intake system with a hospital grade HEPA filter, the Portable Dust Containment System delivers the ultimate in dust containment.

- Bona exclusive two-step cyclonic intake system with 2 hospital-grade HEPA filters.
- Powerful 2 motor system
- Meets both EPA & OSHA requirements for LEED standards.
- Uses a Longopac® system (continuous bag) to collect the dust, never exposing the collected dust to the job site.
- Extremely portable and easy to use, weighing less than 110 pounds. Dolly system for easy load/unload.
- Clear dust barrel and filter gauge make it easy to know when unit is full.

Bona® Belt UX

Modern technology paired with power and precision, the Bona Belt UX is the only belt sander you need. Its unique dual-speed pulley system and infinite drum pressure adjustment assure the highest sanding quality and flattest floor for any wood. The specially designed cable and hose holder, ergonomic handling, disassembly/reassembly and travel dolly were all intended with the contractor in mind. For optimal dust containment, pair it with a Bona® DCS.

- 3.7kW 230v 5hp motor
- Featuring a new feather handle with a wide grip and dual handle for easy maneuverability
- Dual Speed Pulley System for fine and coarse sanding
- Infinite Pressure adjustment with an additional indicator
- Newly redesigned cord/hose holder
- Travel dolly included helping protect the working wheel

AMK170140

8" (with Travel Base)

Bona® Belt

Maximize efficiency by using a 10" drum in a 8" chassis. The wider drum increases productivity and produces the flattest floor possible. Special transport wheels provide protection and convenience during transportation.

- Innovative compact chassis for easy maneuvering
- Poly-V drive belt increases power and is even more efficient than regular belts
- Adjustable double feather handle and lever operation. Drum pressure, tracking and cut angle all adjust safely from the top of the machine
- Atomic DCS® compatible. 6" height adjustable handle. 4.0 HP, 60 Hz, 230 Volt, Thermal Overload Protection, travel dolly and nose weight are included

Bona FlexiSand DCS® Buffer

The Bona FlexiSand DCS® Buffer's technologically advanced design is engineered for performance, convenience, durability, unequalled power, superb balance and superior dust pick-up. The new low deck design combined with the adjustable illuminator light make working in hard-to-reach places easier than ever before. Push button activated handle is easy to use and is adjustable to meet the needs of any user.

Key Benefits

- Innovative vacuum chamber for superior dust pick
- Low deck height for access to toe-kicks and other hard to reach places
- Large wheels for easy maneuverability when transporting
- Hydraulically adjustable handle height at the push of a button
- Features a folding handle for more compact storage
- Floating dust skirt adjusts automatically

Sanding Buffers

Bona Power Drive®

The Bona Power Drive® is a truly all-directional and versatile disc sanding system. It delivers exceptional power and can significantly reduce your edging time.

Key Benefits:

- Can be used to sand entire floor from the start or follow after one cut with a Bona Belt machine
- Achieves the flattest floor possible eliminating chatter where it starts
- Saves labor time and cost by reducing edging time up to 50-80%

Sanding Accessories

Bona Wire Brush Kit

Introducing the Bona Wire Brush Kit! Used with the Bona Power Drive®, the Bona Wire Brush gets down into the grain to create texture and unique color dimensions. Items included: 5 Wire Brushes, Dust Shroud & Drive Pad for hand tool, Power Drive XL Dust Skirt, Protective Gloves, Wire Brush Corner Tool, & Wire Brush Removal Tool. **All items are available for purchase separately.**

Key Benefits

- Durable, easy-to-use wire brushes for use on-site with both newly installed and refinished floors
- Allows for close proximity to walls for minimized edge work and blending issues
- Removes soft grain leaving the more durable hard grain, providing a natural texture and look to the floor

Edgers

	Item Number	Size	Lbs.
<p>Bona® CombiEdge</p> 	AMK282010	6"	49

To stabilize and protect sanding machines during transport. Fits most belt and drum sanders. Lock-down strap and hardware included.

Two long-life, high-output fluorescent bulbs protected in a durable, high impact plastic housing. New swivel bracket enables user to have light up to 45° left or right of center for full coverage.

Accessory for the Bona Power Drive® including two LED lamps for better visibility while sanding. The sanding result becomes easier to see.

The Bona DCS® Tampico Brush used with a DCS® buffer and DCS® system helps remove the fine dust from the soft grain of wood prior to sealing, staining or oiling. In addition, it's an excellent tool post wire brushing to achieve a cleaner more textured appearance.

The non-marking plastic brace simply snaps onto the back two wheels of the Bona® CombiEdge allowing you to pivot the edger over stair treads, landings and overhangs, expanding your sanding surface with no additional adjustments to the machine.

Versatile edger with interchangeable arms provides excellent reach under the deepest toe kicks and radiators, and can maneuver in tight, hard-to-reach areas.

Key Benefits

- Interchangeable long arm and short arm options
- Utilizes 6" sanding discs
- LED light provides excellent illumination
- Lightweight design for greater ease of use
- Easily convert from Short Arm to Long Arm as needed
- Dust containment ready

“ The Bona Power Drive is one of the most productive, labor-saving, and cost efficient hardwood floor sanding systems I have ever used! It saves a pass with the belt sander and edger and decreases orbital sanding by 75% on a job. In total it saves us an entire day of sanding per job. ”

- Gary Sword, *Sword Floors*

Bringing out the best in hardwood floors.

At Bona US, we are committed to the lifetime of hardwood floors. We are devoted to providing solutions that keep a floor perfect during its entire life. Through our long commitment and constant search for innovation we offer lasting, sustainable results for professionals and floor owners.

Bona is a family-owned company founded in 1919. With its headquarters in Sweden, Bona is now present in more than 90 countries all over the world through subsidiaries and distributors. We provide products for the installation, maintenance and renovation of hardwood floors throughout their lifetime. Today we have solutions for professionals, homeowners and prefinished manufacturers.
